Prevent Suicide Door County Nathan Wilson Coalition

More than 60% of us will lose someone we know to suicide during our lifetime. More than 20% of us will lose a family member. Although most depressed people are not suicidal, most suicidal people are depressed.

Who attempts suicide?

- **Young people** – Second leading cause of death in WI for young people ages 15-24. Wisconsin had the 14th highest in the nation for ages 10-14.
- **Middle Age** – 47% of all suicides in WI will occur between the ages of 45-64.
- **Older people** – Every 90 minutes in the U.S. an elderly person will die by suicide. Older adults make up 12% of the population, yet account for 17% of suicides.
- **Veterans** – More than 6500 veteran suicides are logged every year, more than the total number of soldiers killed in Afghanistan and Iraq combined since those wars began.

Suicide occurs in every social class, every culture and at all ages. The presence of suicide warning signs in someone should never be dismissed with, “Oh, he’s not the type.”

Suicide Prevention in Wisconsin

- SUICIDE IS A PUBLIC HEALTH PROBLEM
- SUICIDE IS OFTEN PREVENTABLE with education, treatment and support.
- 90% of the people that die by suicide have a TREATABLE MENTAL ILLNESS OR SUBSTANCE ABUSE PROBLEM. Of those 90% approximately 60% have a depressive disorder.
- We must address SUICIDE PREVENTION ACROSS THE LIFESPAN. If a grandparent dies by suicide, it increases the risk for other family members 5 – 6 times.
- SUICIDE IS COMPLEX.
- SUICIDE IS A COMMUNITY PROBLEM, and everyone can have a role in the solution.
- SURVIVORS of Family or Friends who have died by suicide and SURVIVORS OF ATTEMPTS of suicide should be included in prevention efforts.
- LETHAL MEANS RESTRICTION – gun locks need to be used; 48% of the suicide deaths in 2010 were from firearms.

What Can We Do?

If someone you know makes you feel that they might attempt suicide, you should try to do the following things: Learn the warning signs; know where to find resources to help. Talk openly to the person. Ask specific questions. Offer the person hope and an alternative solution.

Do not be afraid to talk about suicide or to use the word. This will not put the idea in their heads or influence them to do it.

Try to get them to talk about what it is in their life that makes them feel the way they do. The more talking on their part, the better.

Try to convince them they need to speak to a trusted person, teacher, coach, counselor, etc. Tell them you want them to get more help than just you alone can give. Go with them if necessary.

Confidentiality. If your friend asks you not to tell anyone, should you keep the secret? There is no rule of confidentiality when it comes to potential suicide. It does no good to keep the secret and lose the person. If you believe your friend is at risk, you must act. Offer to go with them to a counselor.

Suicide threats are a serious sign of trouble and need to be taken seriously so that people will not feel the need to resort to more drastic means of expressing their unhappiness.

Responding to a potential suicide in this way can help prevent many suicide attempts or even prevent someone from completing a suicide.
